

## Community Data Program

CCSD's Flagship initiative

### Schedule B, 2016-2017

This Schedule B lists data products that the CCSD Community Data Program intends to acquire during the 2016-2017 program year. (Program years run from April 1 to March 31.)

Schedule B contains a list of data products—including both data tables and analytical tools—as well as the names of data providers, a summary of available geographies, and the data delivery schedule. These are reflected in the tables on pages 2-XX.

If you notice any errors, omissions, or out-of-date hyperlinks, [please notify us](#).

### Making data available takes time

Note that making data available takes time. While certain products will be available within weeks of purchase, the special/custom orders from Statistics Canada and other providers may take up to 12 months for delivery.

### Schedule B is updated regularly

This document is amended regularly, subject to the availability and cost of data. Priorities for data product acquisition are identified by the Data Access and Purchase Working Group with input from Leads and are approved by the Community Data Program Steering Committee, using a decision making process consistent with the Community Data Program *Governance Structure and Operating Procedures* ([communitydata.ca/resources](http://communitydata.ca/resources)). If you have questions about this process, please speak to your local Consortium Lead or to the [Community Data Program Team](#).

#### ***Census geography***

pt	Province and territory
cma	Census metropolitan area
ca	Census agglomeration
cd	Census division
csd	Census subdivision
ct	Census tract
da	Dissemination area
cg	Custom geography

#### ***Postal geography***

pcity	Postal city (or “City total”)
fsa	Forward Sortation Area <sup>1</sup>
rc	Rural community
fsaldu	Six-digit Postal Code <sup>2</sup>

---

<sup>1</sup> Three-digit postal code

<sup>2</sup> Includes all six-digit postal codes, rural and urban
