

DATA PURCHASE AND ACCESS WORKING GROUP

January 13, 2022

2:30pm - 4:00pm Eastern time

Connection details:

Zoom: <https://us02web.zoom.us/j/88655380786>

Attendance

Michael Ditor, CDP team
Katie Carr – Ottawa Neighbourhood Study
Morgane Dunot - Simcoe
Peter Marriott - Vancouver
Ted Hildebrandt - Halton
Jasmine Ing - Calgary
Louisa Wong - Hamilton
Samrul Aahad – Northern Ontario
Andrea Dort - Peel
Valentyn Kliuchnyk - York
Laurie Dixon - Kingston

Agenda

- Data acquisition updates
- 2016 Census tables
- Canadian Housing Survey
- 2021 Census acquisitions - priority list
- 2021 Census – reporting on Gender
- IMDB tables/IRCC tables
- Experimental Estimates of Sense of Belonging to the Local Community at the Census Tract Level
- Changes to the Labour Force Survey and General Social Survey
- Next meeting
- Other business

Data acquisition updates

These products have been acquired and cataloged recently:

- [Labour Force Survey - supplemental tables, monthly](#)
- [EIS - Employment insurance \(EI\) beneficiaries, monthly, unadjusted for seasonality](#)
- [Community Health Profile Dashboard](#)
- [Canadian Housing Survey - 2018 Public Use Microdata File](#)
- [Components of population change](#)

- [Mobility In and Out of Local Immigration Partnerships Dashboard](#)
- [Building Permits - detailed, 2016-2020](#)
- [Liquid Assets Dashboard](#)
- [MIG: Migration Estimates, Table E, 2019-2020](#)

UPDATE – THESE FILES HAVE ALSO BEEN RECENTLY CATALOGED:

- [CPP Table 2d: Detailed Language Spoken Most Often At Home \(269\), Age Groups \(10\), Sex \(3\), Income Status in 2015 - CPP \(7\) and Knowledge of Official Languages \(5\) for the Population Aged 15 Years and Over in Private Households of Canada, 2016 Census](#)
- [CPP-13: Mode of transport to work \(7\), Income status in 2015 - CPP \(9\), Work Activity \(7\), Selected cultural and activity difficulty characteristics \(13\), Sex \(3\), and Age Groups \(5\) for the Population 15 Years and Over, 2016 Census](#)
- [Postal Code Conversion File, November 2021 update](#)
- [Labour Force Survey - LFS characteristics by 2016 Census Division boundaries - two year average estimates](#)
- [Annual population estimates by age and sex, July 1, 2001 to 2021](#)

To be cataloged soon:

- CMHC Vacancy Rates (note re: CD-level data)
- CMHC Housing Completions (note re: CD-level data)

To be received soon:

- [Collective Dwellings table](#) from 2016 Census at all standard geographies
- Working Poor table from 2016 Census
- CPP-9-EF and CPP-10-EF at DA level
- Custom requests from Canadian Housing Survey

ACTION: acquiring data on vacant buildings – data source at small level geo

Context: Safety issue

2016 Census tables

Production system issues. Still having problems with Profiles.

TGPs still on the priority list:

- HH TGP of multi-generational households
- HH TGP of households in housing that are unsuitable
- HH TGP of households in subsidized housing

- HH TGP of households in need of major repairs

Target group profile of population by main mode of commuting to work, Census, 2016

Ordering this table at standard and custom geos

There are issues with the universe of this table. We should re-order this table with a universe consistent with other tables.

STC has begun work on Working Poor tables

When Working Poor is completed, the next 2016 Census custom tabulations on the priority list:

- CPP-13: Mode of transport to work (6), Income status in 2015 - CPP (9), Sex and Age (15), Work Activity During the Reference Year (7), Selected cultural and activity difficulty characteristics (13)
- CPP Table 3: Age groups (8), sex (3), income status in 2010 - CPP (7) and selected educational and labour force characteristics (84) for the population 15 years and over in private households
- CPP Table 2d: Detailed language spoken most often at home (269), age groups (10), sex (3), income status in 2010 - CPP (7) and knowledge of official languages (5) for the population in private households

2021 Census custom table - priority list

Not much response. Still plenty of time.

Default: start out with Target Group Profiles

ACTION: submit TGP requests now - **DONE**

ACTION: MBM – look into acquiring tables with similar base-year (update 2016 tables? Or use previous base for 2021, as well as 2018 base)

NEED consistent data on the poverty line

Canadian Housing Survey

We received some shell tables for the CHS requests that we submitted and there is a LOT of suppression. ~~Unlikely that we will order these tables.~~

UPDATE: There was a misunderstanding as to what qualified as publishable data in the shell tables.

There is enough usable data to make acquisition of these tables worthwhile and they have been ordered at the Census Division level.

2021 Census – reporting on Gender

Conversation with STC indicated that Gender will be preferred in reporting over Sex at birth.
More information to come on gender reporting.
Making arrangements to have a webinar on this subject.

IMDB/IRCC tables

Production on previously acquired IMDB tables will begin soon.

iCARE (service delivery) data tables. Will need to discuss research priorities with National LIP Secretariat.
For IMDB want to maximize use of economic outcome/mobility data. Otherwise, get data from IRCC.

Workshop planned for January 26 from 12:30-2:00pm Eastern Time.

Request submitted to IRCC for PR tables. Initial design based on IMDB tables.
Temporary residents

Experimental Estimates of Sense of Belonging to the Local Community at the Census Tract Level

<https://www150.statcan.gc.ca/n1/pub/11-633-x/11-633-x2021007-eng.htm>
Not available.

ACTION: add this idea to the conversation re: modeling data - what could be done to make these data publishable? 10-years of data? *Look at other CCHS variables*

Other products for SAE (modelling): Canadian Survey on Disability – can this be modeled? Using DSQ responses as a correlate?
Sexual orientation variables from CCHS at smaller geos

Changes to the Labour Force Survey and General Social Survey

- Via the Disaggregated Data Action Plan, working to release more data
- LFS & GSS are slated to have an increase in sample size
- LFS will cover more CSDs (40-45 CSDs will see increase in sample size)
- LFS: Sample increase completed April 2022, with goal of getting CV of 16.6% for unemployment rate of 5% - 3-month moving average
- Response rate for LFS has decreased during the pandemic

ACTION: QUESTION: GEOGRAPHY or age/sex?

ACTION: Giving, Volunteering & Participating data from the GSS – WHAT IS AVAILABLE? Calgary, Halton, Vancouver
Donor information as well

We have asked STC about when will be a good time to put in an order.

Next meeting

Week of April 4, 2022

Other business

Reminder: not too early to submit custom geographies
Program updates: Rural network partnership, CAEH
