Community Snapshot

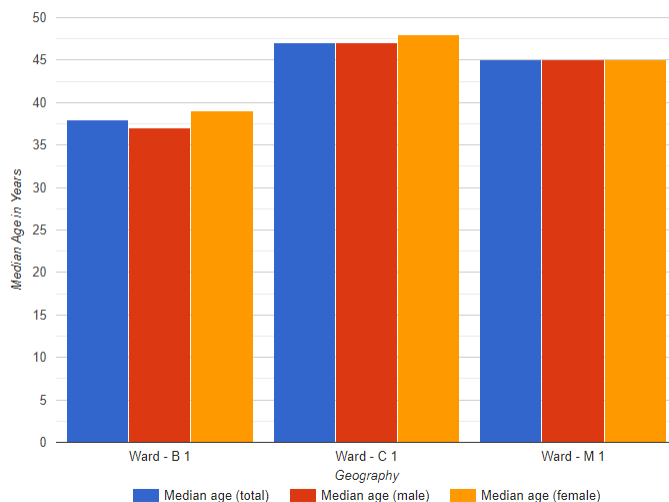

2016 Region of Peel Ward Profiles

Summary

The [2016 Region of Peel Ward Profiles](#) is an interactive tool that provides information and data on the Region of Peel. It allows users to examine and compare Peel's wards according to variables relating to six factors, including demographics, employment and income, housing, ethnicity and immigration, language, as well as transportation and education. The data is displayed clearly through easily comprehensible graphs, and comes from the 2016 Census and Long Form.

Median Age

The median age of Peel residents is **38.3** years old. This is the lowest in the Greater Toronto Area (GTA)!

 The median female age is 39.1 years old.	 The median male age is 37.5 years old.
