

# Community Data Program

Enabling communities across Canada to measure and track local well-being

## Community Snapshot

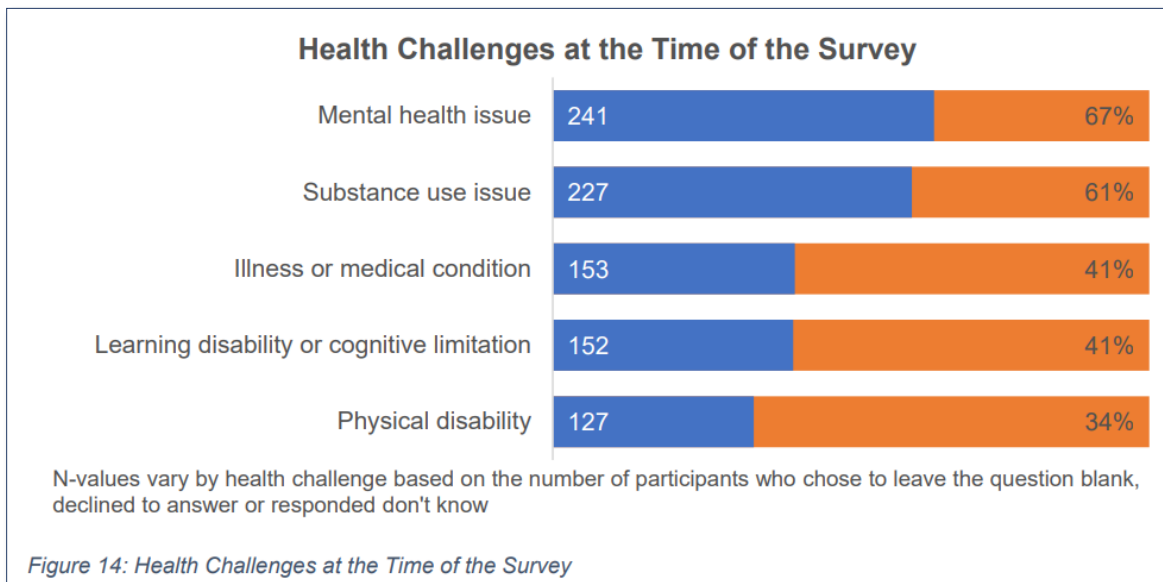

### Simcoe County Community Data and Report

## Summary

The County of Simcoe offers the Community Data and Reports portal. The resources on this portal, echo a diverse community and provide demographic information based on data collected by Statistics Canada and accessed through the Community Data Program, as well as primary data collection and administrative data sources.

Below is a graph from [the Everyone Counts: 2020 Simcoe County Homeless Enumeration Report](#). This graph displays survey data collected from people experiencing homelessness on November 17th, 2020. The percentage of survey participants who reported a physical disability was compared to information collected from the 2017 Canadian Survey on Disability accessed through the Community Data program
