

# Community Data Program

Enabling communities across Canada to measure and track local well-being

## Community Snapshot

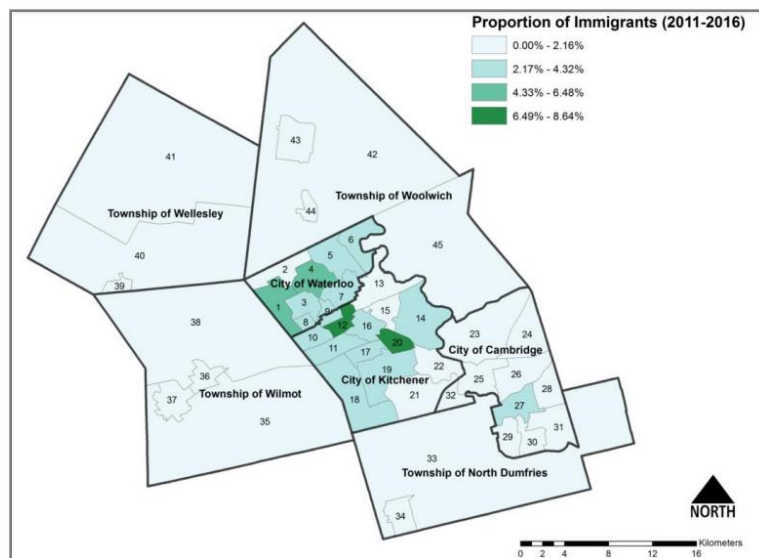

### Waterloo Region Immigration Profile, 2019

Region of Waterloo

## Summary

The Waterloo Region Immigration Partnership and Region of Waterloo Public Health and Emergency Services produced a report which provides profile of immigration in Waterloo Region. This profile represents data on both recent and established immigrants as well as temporary residents. The report aims to boost the understanding of immigrant populations in Waterloo Region to ensure that as a region and community, proper services and strategies are planned to include the broader needs of this population.
